Art Unit: 1652

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

After a careful re-reading of the instant specification and the instant claims, the claims were deemed allowable because the claims are drawn to SEQ ID NO:1 and 2, which are the nucleotide and corresponding protein of Alteromonas fortis iota-carrageenase. Part (c) of claim 1 states that the HCA score "with the iota-carrageenase of Alteromonas fortis...is greater than or equal to 65%...of the amino acid sequence of Alteromonas fortis that is SEQ ID NO:2", and claim 13 and 14 limit the HCA scores to equal to or greater than 70% and 75%. Since SEQ ID NO: 2 is the same as the iota-carrageenase of A1teromonas fortis, they have HCA scores that are 100% identical since they are the same protein. Claim 17 is simply using the gene of SEQ ID NO:1, which was deemed allowable in US patent 6,333,185, to transform a host cell, isolating the iota-carrageenase and using it to produce iota-carrageenans. Iotaoligocarrageenans of the previous claim 17 and iota-carrageenans of the instant claim 17 are simply obvious variants of each other. The former indicates that the length is relatively short whereas the latter does not indicate the length of the saccharide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
